

Torin Longaker

Seattle, WA • 206.226.3641 • torinlongaker@gmail.com • github.com/TorinL • torinlongaker.com

Profile

Full-stack web developer who previously worked in small teams as an EMT.

Technical Skills

HTML, CSS, JavaScript, jQuery, Bootstrap, Ajax, AngularJS, and Git.

Education

Certificate in Web Development
Galvanize, Seattle, Washington
Completed 2017

Bachelor of Arts in History
Linfield College, McMinnville, Oregon
Graduated 2013

Projects

HomeMatcher | github.com/TorinL/capstone-project

A product built for home sellers and buyers looking to avoid the middleman. The application features a survey that connects users based on home criteria such as size, location, and price.

Tower Power | github.com/mcdermz/Q3-sim-tower-lite

Worked in a group to create a game based on Sim Tower. I built the CSS, HTML, and Angular directives for the front-end.

Dev Connect | github.com/shiftyfive/devconnect

Worked in a group to create a social media site for web developers. I built several back end routes, worked on the database, and supplied much of the front-end HTML/CSS for the site.

Game Finder | github.com/TorinL/game-finder

A video game website to find information on any video game ever made, built using CSS Bootstrap, jQuery, JavaScript, and HTML.

Experience

Volunteer Web Development Teaching Assistant
Galvanize | Seattle, Washington
June 2017–Present

Emergency Medical Technician
American Medical Response | Seattle, Washington
August 2016–November 2016
